Duty-Free Eligibility

From non-EU countries — Duty-free conditions: Per the FPS Finance (official government source), personal property may be imported free of import duties and VAT if all of the following conditions are met: the person is transferring normal place of residence to the EU (Belgium); they have resided outside the EU for at least 12 consecutive months; the goods have been owned and used for a minimum of 6 months at the former residence before the departure date; the goods are for the person's use and will continue to be used; and the goods are imported within 12 months from the date of establishing residence in Belgium.

Items not eligible for duty exemption: Alcoholic products (except "fond de cave" of less than 30 bottles with a declaration), tobacco products, commercial means of transport, articles for use in a trade or profession (other than portable instruments of applied/liberal arts). New items (less than 6 months old), presents, and souvenirs are subject to duties.

Household Goods — Specific Information

Intra-EU moves: If moving from within the EU, no customs declaration is required. Free movement of goods applies within the EU single market.

Pre-arrival import possible: Relief can be granted before the person establishes residence in Belgium. In that case, the person must commit to establishing residence within 6 months. A security deposit is required.

Partial shipments: Used household goods may be imported in several separate shipments, but the declaration of duty-free entry must be completed for all shipments at the time of the first importation.

12-month transfer restriction: After import, goods may not be lent, pledged, rented out, or transferred (whether or not for consideration) without notifying Customs in advance for 12 months. Violation results in revocation of the relief and payment of import duties.

Warranty/guarantee for non-residents: Foreigners without a Certificate of Residence in Belgium must pay a warranty of 10% customs duties + 21% VAT + EUR 500 to cover possible fines. This is refunded upon proof of residency.

Belgian nationals returning within 2 years: Must produce the customs documents issued at the time of export of their household goods and/or vehicle. Without these, a warrant/guarantee must be paid.

Customs competence: The local head of customs at the import office grants exemption for most goods. For motor vehicles, trailers, motorcycles (over 50cc), motor caravans, pleasure boats, and tourist aircraft, the director of the regional Customs and Excise Centre (for the area of the new residence) is responsible.

Shipper arrival timing: The shipper should arrive in Belgium at least 1-2 weeks before the shipment to obtain the Certificate of Residence from the town hall.

Key country facts: Belgium is a federal state in Western Europe, bordered by France, Luxembourg, Germany, the Netherlands, and the North Sea. The capital is Brussels (also the de facto capital of the EU). Official languages are Dutch, French, and German. The currency is the euro (EUR). Belgium is a founding member of the EU and NATO. VAT is 21%. Import duties follow the EU Common External Tariff. Driving is on the right-hand side. Antwerp is one of the world's largest ports.

Important notes for movers: Belgium's customs procedures for transfer of residence are standard EU procedures — well-documented and predictable. The key practical steps are: obtain

the Certificate of Residence from the town hall upon arrival (shipper must arrive before the shipment); prepare the detailed inventory with the specific format required (introductory/concluding statements, 6 copies); and ensure all items are genuinely used and owned for 6+ months. The 10% + 21% + EUR 500 guarantee for persons without a residence certificate at the time of clearance is a significant cash flow consideration. The Antwerp port is efficient but Belgium's central location means many shipments also arrive via Rotterdam (Netherlands) or Hamburg (Germany) and are transported overland.

Regulatory Updates

- **Ongoing:** EU customs regulations apply. Belgium follows the Union Customs Code (UCC) and all EU-wide tariff updates.
- **2024-2025:** EU digital customs initiatives continue; Belgium uses the PLDA/NCTS electronic customs systems.
- **VAT:** Stable at 21% for standard rate.
